

E3 CUBE

“Delivering Aspirations”

What are you doing about CIF 2016 / 17?

E3 Cube are education property consultants who achieved **94% SUCCESS RATE** when bidding to the EFA for CIF 2015/16.

We have been developing Academy capital bids since late 2010 and have compiled a wealth of knowledge and experience.

Below we have highlighted **6 TOP TIPS** for a successful CIF Condition related application.

#1

Obtain an independent report, from a credible source, to support your claim of condition need.

#2

Ensure the supporting evidence fully validates the claim of condition need.

#3

Use cost benefit analysis techniques when developing the option appraisals to determine best value.

#4

Embed sustainability within a condition project, quantify the revenue savings and make use of the Salix Funding.

#5

Provide independent evidence to support the predicted costs. Include quotations or tender returns to validate the funding request.

#6

Be realistic about timescales for delivering the work. Compile a programme and consider phasing the works to reduce the risk of impacting teaching.

Use E3 Cube's expertise to assist your Academy and access the next round of EFA Condition Improvement Funding.
